Design basics, guidelines and templates for developers and designers to invent, plan, and build UWP apps.

## **Design Universal Windows Platform (UWP) apps - UWP app**

Responsive web design (RWD) is an approach to web design that makes web pages render well on a variety of devices and window or screen sizes. Recent work also considers the viewer proximity as part of the viewing context as an extension for RWD. Content, design and performance are necessary across all devices to ensure usability and satisfaction.

A filter system serves two purposes for the pond, the first is to act as a mechanical filter and the second is to act as a biological filter. Not all ponds will need filters but in most cases where fish are the priority they will be required in order to keep water clarity and toxic levels below the fishes tolerance.
