The Gateway to Up-To-Date Information on Integrated 'Whole Building' Design Techniques and Technologies. The goal of 'Whole Building' Design is to create a successful high-performance building by applying an integrated design and team approach to the project during the planning and programming phases.

WBDG | WBDG Whole Building Design Guide

What you must do. All suppliers must supply safe work equipment, whether this is new, second-hand or hired out. They should make reasonable checks that the products they supply are safe, including - as is required in most cases - making sure the product is CE marked and supplied with relevant information, including the instructions for use.
