### **Enterprise Architecture as Business Capabilities Architecture**

How many layers are there in an enterprise-architecture? If we read any of the standard texts, youâ€™™ll see there are several popular answers. For example, Archimate says there are three: Business, Application and Technology. TOGAF says there are four: Business, Data, Application and Technology

### **On layers in enterprise-architecture â€“ Tom Graves / Tetradian**

Welcome to the Virtual College, one of the UK's most successful and award winning online education providers. About us The Virtual College first opened its doors in 1998, offering a small number of IT courses.

### **1 ITIL Service Lifecycles and the Project Manager**

While there are four kinds of flow elements: Activities (Task and Sub-Process), Events and Gateways, there are mainly two kinds of connecting objects: Sequence Flows and Message Flows.

### **Introduction to BPMN Part III - Flow and Connecting Objects**

Concepts and Principles System Element, Physical Interface, and Physical Architecture Model. A system element is a discrete part of a system that can be implemented to fulfill design properties.

### **Physical Architecture Model Development - SEBoK**

A powerful yet simple mechanism for capturing and managing Element discussions in a team based environment. This feature is an extension to normal Element Discussions by providing a structured process around creating, reviewing and actioning those conversations.
